

The Waiting Room: Lost and Found

- The exhibition fits into a 14ft panel truck with all artworks and exhibit materials soft-packed.

Exhibition specifications

This exhibition is highly adaptable and can be configured in many ways. For instance, if your exhibition space smaller than 2,000 sq. ft., we could edit out one or more of the tableaux. If your exhibition space is larger, we often look for ways to include community participation through our Milagros workshop, work with related regional collections and archives to be part of the installation, or, given enough lead-time, we have additional tableau ideas in development that could be added to the exhibition.

- 2,000 sq.ft. is the recommended minimum exhibition space for the full installation
 - Temporary wall partitions (provided by host gallery) are used to divide gallery space into discreet "rooms".
 - Specifications given below provide object measurements and recommended minimum space requirements.
-

1 Melancholia Tableau, 10'2" x 14'5" sq. ft.

- Freud's fainting couch, 28" x 72" x 48"
